

## DESCENDANTS OF JOSEPH AND ELIZABETH FRANKLIN

It was passed on to Naomi [ADAIR] HENDRICKSON from Ida Spencer HICKERSON that [#273.] Malinda Jane FRANKLIN wanted descendants to remember that she was a *fifth cousin of BENJAMIN FRANKLIN*. The "Portrait and Biographical Album" of Greene County, Ohio, lists George SHIGLEY, Jr., and calls attention that his mother [Malinda's Aunt] [#252] Olivet [FRANKLIN] SHIGLEY was of "*English descent, and a descendant of the family to which the famous philosopher, Benjamin Franklin, belonged.*" A cousin, [#532.] Ann MALLETT, reported it had been handed down to her that they were related to the FRANKLIN that caught lightning in a jar!

From preceding information, this compiler is accepting that GRT GRANDMOTHER MALINDA was a *FIFTH COUSIN OF THE 'BENJAMIN FRANKLIN'*. This would make his early ancestors, also, our early ancestors. Copied from "VOL. II APPLETON'S CYCLOPEDIA of AMERICAN BIOGRAPHY - page 56" was the following information; "Benjamin Franklin was born in Boston, Mass, 17 Jan 1706; died Philadelphia, PA, 17 Apr 1790. His family had lived for at least three centuries in the parish of Ecton, Northamptonshire, England, on a freehold of about thirty acres. For several generations the head of the family seems to have been the village blacksmith, the eldest son always bred to that business. **Benjamin's** grandfather, **Thomas**, born in 1598, removed late in life to Bandbury in Oxfordshire, while his eldest son, **THOMAS**, remained on the estate at Ecton. This **Thomas** received a good education, and became a scrivener. He came to be one of the most prominent men in his county, and formed a friendship with the Earl of Halifax. In mental characteristics, he is said to have borne a strong likeness to his immortal nephew. The second son, **JOHN**, was a dyer of woollens, and lived in Banbury. The third son, **BENJAMIN**, for some time a silk-dyer in London, *emigrated to Boston at an advanced age, and left descendants there.* He took great interest in politics, was fond of writing verses, and invented a system of short-hand. [To fit in as to be a fifth cousin of the **BENJAMIN FRANKLIN**, this is the most likely ancestor of our **MALINDA**]. The fourth son, **JOSIAH**, born in 1655, served an apprenticeship with his brother **JOHN** in Banbury, but removed to New England in 1682. Among the dispossessed clergymen in Northamptonshire were friends of **BENJAMIN** and **JOSIAH**. The persecution of these non-conformists led to a small migration to New England in which **JOSIAH** took part and later brother **BENJAMIN** joined him in Boston. **Josiah** lost his first wife after the birth of seven children. He married *second* to **Abiah FOLGER**, the daughter of one of the earliest settlers of New England, **Peter FOLGER**. This marriage produced *ten* children, the youngest being the noted *Benjamin Franklin*. The latter became unpopular in Boston due to some of his writings for newspaper owned by **brother James** and he moved to Philadelphia. Since Malinda's grandfather was born in PA, one can assume some of the first cousins of the **Dr. BENJAMIN**, children of his **Uncle Benjamin**, moved to Philadelphia with him. Assuming Malinda and Ann's Aunt to be correct, our first known FRANKLIN ancestor is *THOMAS FRANKLIN, the Grandfather of the illustrious Dr. BENJAMIN*;

## JOSEPH A. FRANKLIN ANCESTORS & DESCENDANTS

1. **Thomas FRANCKLINE [1]** was of Ecton, in Northampshire. He was born in 1542. Much of following from *DR. BENJAMIN'S BIOGRAPHY*. He had at least one sister, Margerye, who married John Walsh, 5 Feb 1561, of Ecton. Five children of Thomas have been recorded in Ecton.

?? @B(John FRANKLIN) [5] [19. John 4, Thomas 3, Henry 2, Thomas 1] was born in 1710 in England and died in North Carolina in 1813 at the age of 103. He was supposed to have served in the

Revolutionary War but records were destroyed by the burning of the Court House of Burk Co, NC, during the Civil War. Office of Adj. Gen. of Raleigh, NC, have the following: "The Colonial Records of the Rev. War of N.C. show that John Franklin enlisted July 1, 1777, as Musician, and was mustered out March 1778. His service in the 6th Regiment, commanded by Col. Gideon Lamb." His wife, @P(Phoeba -----) lived to be 96. They had at least one son that had many descendants ;

He lived in Boston and died 21 Feb 1775. @P(He married in New England twice.) He was the @P(first cousin) of the illustrious Dr.BENJAMIN. His first wife had only one son, Samuel. He would have been born in New England, first living in Boston area, and then moving to Pennsylvania. Thomas, John, Benjamin, William, and Joseph are all possible names of this ancestor and his son as Franklins with this first name existed on tax rolls of Philadelphia County. This Franklin likely had several other children;

**267. Andrew R. FRANKLIN [9] [251. James 8, Joseph 7, \_\_\_\_\_ 6, \_\_\_\_\_ 5, Benjamin 4, Thomas 3, Henry 2, Thomas 1]** was born in Ohio on 5 Jan 1823 and died in Mexico of natural disease on 29 Jul 1847, a soldier in the Mexican War. At the

time, he was a private of Co. "E" of the 1st Regiment of Mounted Rifleman. Most of the casualties of this war were due to diseases. He had enlisted at Logansport, IN, about the month of July in 1846 for a term of five years. He had no children and did not leave a wife. In 1848 at Delphi, IN, his father, James, applied for a land warrant for the loss of a son and was granted one for 160 acres on 3 Jul 1849. James claim No. was 75,705 and the Land Warrant No. appears to be No. 61517, issued June 23, 1849. It is not known whether James exercised this warrant or sold his rights as many did.

**301. Joseph A. FRANKLIN [7] [???. \_\_\_\_\_ 6, Samuel (?) 5, Benjamin 4, Thomas 3, Henry 2, Thomas 1]** born 17 Aug 1768 and died in 1833 after 29 Mar 1833 in Tippecanoe Co, IN. He came to Ross Co, OH, from Philadelphia, PA. He could have been regarded *A third cousin of the illustrious Benjamin*. He married *Elizabeth SMITH [Smyth]* 6 Sep 1770 [still living 4 Aug 1834, Probably with her son Preston in Tippecanoe County, IN]. A Joseph claimed bounty land in Illinois for service in the War of 1812. [He may have served in the War of 1812 as Qm Serg't of Gates Artillery.] The family moved to the Tippecanoe Region in 1825 or 26 - having purchased, on 14 Nov 1825, 80 acres [W 1/2 NE 1/4 SEC 17 T22N R4W] of Wabash County. Wabash County included the present Tippecanoe County which was organized in 1826. Census records show at least one son born in Pennsylvania. He moved with his family to Chillicothe, Ross Co, OH, about 1800. The west two-thirds of Ross Co was part of the 1784 VIRGINIA MILITARY DISTRICT. The eastern third was part of the CONGRESS LANDS 1795 - 1802. The family may also have resided in Kentucky. Joseph signed his will on 29 Mar 1833 with his 'X' so he apparently couldn't write but could have been due to extreme illness. [It should be noted that most of the Franklins were well educated.] He died a short time after the will was signed. They were parents of at least six children as listed;

At the time, he was a private of Co. "E" of the 1st Regiment of Mounted Rifleman. Most of the casualties of this war were due to diseases. He had enlisted at Logansport, IN, about the month of July in 1846 for a term of five years. He had no children and did not leave a wife. In 1848 at Delphi, IN, his father, James, applied for a land warrant for the loss of a son and was granted one for 160 acres on 3 Jul 1849. James claim No. was 75,705 and the Land Warrant No. appears to be No. 61517, issued June 23, 1849. It is not known whether James exercised this warrant or sold his rights as many did.

On 3 Oct 1811 she married to @P(George SHIGLEY). He was of German descent and came to Ross Co, OH, in 1805 from Pennsylvania. He was born 1798 and died in 1867, living to be nearly 70 years old. After their marriage they moved to Greene Co in 1812. The "Portrait and Biographical Album" of Greene County of their son calls attention that she was of @P{"English descent, and a descendant of the family to which the famous philosopher, Benjamin Franklin, belonged."} Olivet also appears spelled as Olive and Oleyvet. Shigley shows up frequently spelled Sheagley. George participated in the War of 1812. They were active members of the Methodist Episcopal Church. They had at least two sons;

In 1863 the James W. family removed to Piatt Co, IL, - 2 1/2 miles east of Cerro Gordo. Malinda's family brought six horses and their household goods by box car from Illinois to Afton, IA, on 1 Apr 1876 and went by carriage to the farm two miles southeast of Delphos, IA. Legal description of their new farm as the SW 1/4 and the SW 1/4 of the SE 1/4 of Sec 28, and the NE 1/4 of Sec 33 in Rice Twp, Ringgold Co. There was a total of 360 acres involved. [This land was initially purchased by Thomas W. and Amanda J. SPENCER, his brother, for \$1.25 per acre in 1855 from the Federal Gov't - the standard price established by the government for land in Ringgold County. Thomas and his wife apparently made this purchase for a speculation investment. Their sale to James and Malinda was finalized 20 Jan 1879 and ownership was made out in his wife's name, Malinda J., - price for the two hundred acres was fifteen hundred dollars or \$7.50 per acre.] Before they left Piatt Co, IL, James sold 80 acres [W 1/2 NW 1/4 Sec 31 in Cerro Gordo Twp] and Malinda J. @FOOT[It is assumed that M. J. Spencer is our Malinda Jane.] sold her 142 acre farm located in the NW 1/4 of Sec 28 in Sangamon Twp. Son, Alpha, stated, "On 4 July 1876, 'Pa' cut hickory poles and made a covered wagon and they all went to Mt. Ayr for the Independence Day Centennial." The new farm home, constructed in 1878 from lumber they hauled from Bedford by wagon and, was still in use in 1996. This farm was later owned and the family home of his oldest son, Ethel. The 1915 Plat Map of Ringgold Co shows that his third son, Alpha, owned the farm directly across the road to the south - the NW 1/4 of Sec 33. Both farms were 160 acres in size. For many years James was one of Ringgold's respected farmers and a large land holder and had accumulated 520 acres of farmland by the time they retired to Mt Ayr when he was 60. His personality and evidence of James' intense interest in the community and national affairs can be noted by gleanings of Ringgold County newspapers. From these, it was noted that he was one of the three members of the executive committee for the Ringgold County Agricultural Society in 1886. His son-in-law, Ira PALMER, was president of this organization. The responsibilities of this society included promoting improved farming methods and conducting the County Fair. James was generally

referred to as 'Jim'. Jim and Malinda were members of the Hickory Grove Advent Christian Church and were parents of nine children - six sons and three daughters with two of the sons dying in infancy. Malinda was blind in her late years, probably afflicted by glaucoma, as was this compiler's mother. *She is probably responsible for the last half of the well kept family records kept with excellent penmanship on sheets that have been inserted in leather backed 1844 family bible that probably originated with her mother. The earlier first half of these records have been recorded with even neater and more superb penmanship that is probably that of her mother.* [My Mother described Malinda as being a very quiet sole and was very small in stature.] James died of cancer 2 Feb 1907 in their home in Mt Ayr. She died 22 Jan 1922 at Humeston, IA. She is interred beside her husband in Rose Hill Cemetery in Mt Ayr, IA. Malinda and James had nine children - six sons and three daughters with two of the sons dying in infancy; The 1850 census records of Benton Twp., Monroe Co, In, showed a Benj. She was very willing to do her part in all activities of the church while her health permitted. She suffered a nervous breakdown in her late forties and lived in a state of depression the remainder of her life with her very loving, quiet, soft spoken, and thoughtful husband. They were within four months of celebrating their `70th' wedding anniversary. Her sister, Mary Evaline, married a brother of Ethel - Alpha SPENCER. Her father, Hosea, was quoted as saying, "I have a daughter for each of those Spencer boys!" Esther and Ethel, after their marriage, established their home on a farm in Rice Twp, Ringgold Co, near Delphos, IA. This farm had been initially purchased by his Uncle Thomas W. SPENCER in 1856 for \$1.25 per acre from the United States of American for speculation. Two hundred acres of this farm, originally 360 acres, was obtained in 1877 and purchase completed in 1879 by his mother and father in 1877 from Thomas W. and wife, Amanda, [filed in 1879] for \$1500 [\$7.50 per acre]. [Thomas and Amanda apparently stayed on the home farm in Greene County, OH, and are interred near his parents - Ethel's grandparents.] After Ethel's father's death in 1907, they became owners and residents of 160 acres of the home place located southeast of Delphos [SW 1/4 of Sec 28]. The adjacent forty acres wound up in the ownership of his nephew, Alpha's son - Cecil. Ethel became owner of this farm on 7 Oct 1908 - transferred from his mother. The farm house that he, his brothers, and father built in 1879 is still in use today [1993]. The house is a distinct Southern design. Early settlers carried designs in their minds - no blue prints! They retired from this farm in 1917 and moved to Mt Ayr. He sold this farm on 28 Sep 1916 to Nathaniel Wardrip. The Delphos Centennial History noted that between 1896 and 1910, Ethel Spencer had sold a farm to Dennis Rush [cousin of compiler] and wife so he may have inherited more than one farm from his father. The 1915 Plat Book shows D. D. Rush owning 160 acres across the road west of Alpha Spencer - NE 1/4 Sec 32. In 1947 the compiler's future bride made her first trip to Mt Ayr, and noted the car on the "Square". She exclaimed, "Look at the old car!" I replied with pride, "That's Grandpa's." After moving to Mt Ayr, he had purchased a Model-T Ford coupe - probably a 1923. It made hundreds of trips the eight or so blocks to the town square where he socialized with the locals almost up to the day he died - used it for a period of nearly 30 years. Ethel and Jennie are interred in Rose

Hill Cemetery on the edge of Mt Ayr. They were the parents of eight children and all of their three sons preceded them in death;

For several years he was engaged in a farm produce business in Mt Ayr @FOOT[This writer relished stopping with Dad to sell our eggs to him as `Grt. Uncle Alpha' was one of my favorite people.] but spent the major part of his life farming in Rice Twp. The exceptions were two years in North Dakota and three years in Humeston, IA. The 1915 Plat Book of Ringgold County shows that he owned the 160-acre farm he resided - the NW 1/4 of Sec 33. He likely became owner of this farm upon the death of his father in 1907. This was directly across the road from his brother Ethel's farm. Alpha became one of two `road masters' of Rice Twp in 1908. In those days they bid on these positions. He still held this position in 1910 when the second half of the township was served by compiler's grandfather, A. W. Elliott. The Rice Township Road management team was recipient of the grand prize of \$100 presented by the Commercial Club of Mt Ayr in 1910. Alpha bid and regained his position in 1915 - then referred to as `road superintendent'. The pay for this position in 1910 was 25 cents per hour as supervisor and totaled about \$300 per year. The going price for a single man was 17.5 cents per hour and a man and team was 25 cents per hour. Alpha and Eva united with the Christian Church at Delphos and later transferred their membership to Mt Ayr. They are both interred in Rose Hill Cemetery on the southeast edge of Mt Ayr. They were the parents of seven children [8?]; @FOOT[Vital statistics records show a third son born in Monroe Twp on 10 Aug 1892. This son apparently died as an infant.]

Oh why, oh why do things come our way?  
Such trials to bear throughout each day.  
Why should her soul go; she was so dear,  
I suppose she was too good for here.

It seems but a day when she was by my side  
When we ventured out on a long pony ride.  
But now she's gone where good folks go  
And we must bear the trial because you know--.

Her parents, brothers, and sister are very sad  
And we must not make them feel so bad.  
To them she was their very gold  
And she's needed here by a thousand fold.

Some day we all shall happily meet  
And walk right down the Golden Street.

He died on 26 Oct 1918 at Julian, Montana. At the age of 15 he was baptized and received into the membership of the Church of Christ at Delphos. On 28 Dec 1911 Lloyd married @P[Mamie Lucreita GRUBB]. She taught in country schools in Ringgold Co prior to moving with family to Montana. She married @i(second) to @P(\_\_\_\_\_ SMITH) and they moved to Fresno, CA. She died 24 Aug 1983 in Fresno, CA, at the age of @P[93]. She is interred in Whittier, CA. Lloyd's death was caused by pneumonia following an attack of Spanish influenza. Multitudes lost their lives because of this epidemic. Lloyd had moved to a farm near his brother, Bert, not far from Scobey, Montana, having moved there in 1916. He is interred in Rose Hill Cemetery in Mt Ayr, IA. [See pages 154-160 Appendices H.6 for letters written by Lloyd and Mamie to his aunt and uncle, Mr. & Mrs. Mark ELLIOTT, three months before his death. Another letter written by 'Bert' on pages 160-2, Appendix H.9 gives the account of Lloyd's death]. Lloyd enjoyed farming and gardening. The following article appeared in a November 1911 issue of the Mt Ayr Record-News, @I("A mess of fine potatoes raised by @P'Lloyd Spencer', son of Mr. and Mrs. E. A. Spencer of Rice Twp, was left at the Record-News office yesterday. Lloyd thought he would like to try his hand at potato raising last spring and asked his father for the use of enough ground to see what he could do. He plowed the ground, planted a half bushel of seed, tended the crop and 14 bushels of as fine potatoes as ever grew was his reward. The potatoes are not as large as some of the specimens that come from the irrigated western states, but they are just the right size to command the top price on the market.") He enjoyed very much like the rest of his brothers hunting and fishing. Lloyd and Mamie had three sons;

She died 8 Sep 1987 while living in the Clearview Retirement Home in Mt Ayr, the site of her in-laws home between 1915 and 1960. On 25 Apr 1915 she married @P[Mark ELLIOTT], son of Alamando Wilcox and Emma Ona [RUSH] ELLIOTT. Mark was born 13 Mar 1891 and died 30 Nov 1976 at the age of @P[85]. They are interred in Rose Hill Cemetery near their infant daughter, his parents, and other members of the Elliott family. Their marriage took place in the home of her parents on farm southeast of Delphos. Iliah was a Methodist as was her husband, Mark, and were members of the Eureka Church located southeast of Delphos and later became members of the Methodist Church in Mt Ayr. After their marriage, they made their home on

the 120-acre farm [Mark's birthplace] until they moved to Mt Ayr in 1968 after his retirement. This farm was located in the SE 1/4 of Section 26 in Rice Twp, four miles south of Mt Ayr. She was a very fine seamstress [professional seamstress in her early years] and cook, providing each of her children a fine quilt. This writer found it a great privilege to be her gardening partner before leaving the nest. While her health allowed her, she was very active in neighborhood and family activities. She served as a local schoolboard director and for many years authored the Crown Point News, a weekly column carried in the Mt Ayr Record News. This was the name of the country school that was located on the hill a third of a mile east of their farmstead. She has had an extreme concern for her friends, neighbors, and relatives and through the years sent countless numbers of cards, letters, and deposited hundreds of flowers on grave sites - giving particular attention to those graves she knew close family members lived far away. She carefully clipped and saved all newspaper items of all family members and @P[to @U(this lady) thanks can be given for providing much of the information going into this family history and other family lines connected to both hers and Mark's.] Note two of her letters to her daughter Zoe, pages 149 & 152, Appendices "D.15 & D.16". Mark attended Highland Park College [a commercial school] in Des Moines for nearly two years prior to their marriage. He was also active in community affairs. He served as assessor, secretary of Crown Point School, active worker in the Republican Party and for many years a member of the Ringgold County Republican Central Committee, and on the election board at Delphos as Rice Twp clerk. Ilah and Mark were parents of five children, including twins, with the oldest child dying in infancy from complications of whooping cough and pneumonia;

This is another Spencer that couldn't have had an enemy! He lived the early portion of his life near Mt Ayr except for two years in North Dakota and was educated in Delphos High School. He farmed near Mt Ayr from 1917 to 1930 and then went into partnership in a produce station with his father in Mt Ayr. He later operated a service station and served as secretary of the board of education for six years. The MT AYR RECORD NEWS recorded on 7 Oct 1943 that he had been elected as the new president of the Mount Ayr Co-operative Club. "Mr. Spencer is one of the club's most loyal members, having served as secretary for many years." She spent her early years on a farm near Delphos 1/4 mile from the Ethel Spencer farm and spent much time with her `double first cousins' - children of Ethel and `Jennie' Spencer. She received a teacher's certificate and taught one year in Clinton Twp for \$45 per month and the next

year at Siloam in Washington Twp for \$52. In the fall of 1919 she entered Drake University after being required to take an entrance exam as Delphos H.S. was not accredited. Her folks then moved to Humeston where she taught three years for \$90 and \$110 per month. She was married @I[first] in the Methodist Parsonage in Allerton, Wayne Co, IA, to @P[Francis 'Reed' SPONSLER]. He was born 28 Feb 1899. Reed attended college in Ames and was a member of the R.O.T.C. during World War I. He farmed with his dad on the home place two miles west of Humeston in Wayne Co. He was one of the first in the county to practice soil conservation - even put together a 'terracer' to build terraces. He was also named as one of Iowa's 'Master Hog Producers' one year. He served as President of Wayne Co Farm Bureau. He went to North Hollywood, CA, where he and Madge had relatives and hoped to find a cure for Lateral Sclerosis with no success as he died there 7 Nov 1946. After Reed's death in 1946, teachers were scarce and she was drafted back into the teaching profession and taught seven more years - five in town and two in the country. One year was in the 'Little Red School House' north of Lineville, Wayne Co, IA, that the local Historical Society is maintaining as one of few remaining. Madge married @I[second] in 1962 to @P[Arthur HAZEN] who died 20 Oct 1967. She and Arthur did much traveling - Mexico City, Alcapolca, New York City, World Exposition in Montreal, Florida and other places. She was girls' 4-H club leader 10 years and became interested in flowers. She attended schools for flower shows and became a Master Flower Judge. She also served six years on the State Board of the Iowa Federation of Garden Clubs while being very busy exhibiting and judging. She was still judging at the age of 85. She suffered from arthritis and had both knees operated on to enable her to continue a busy life without a wheelchair. She was baptized into the Christian Church at Delphos at the age of 11 and transferred her membership to the Humeston Christian Church, having lived there since 1955. re-instated football in 1922. He was elected captain of the first football team. After graduation in 1923, he worked a few months for his brother-in-law, Everett Galloway, in Chicago doing construction work. He moved to Colorado later in 1923 doing ranch work near Brush, moving to Ft. Collins in 1924 and worked at the Northern Garage. He married on 17 Jun 1925 in Ft. Collins to @P[Vera LUTZ]. John was employed by Sinclair Refining Co. for 36 years in Ft. Collins, Loveland, Denver, La Junta, and Lamar, all in Colorado. Their first son, Delbert, contracted infantile paralysis (polio) in 1928. Repeated trips to Denver for doctor treatments resulted in moving to Denver, where John worked at Sinclair stations and the corporate office. An operation on Delbert in 1935 repaired his left leg allowing him better mobility. The family moved to La Junta in 1941, and to Lamar in 1943. John retired from Sinclair in 1963, and worked for Lamar Farm Supply (J.I. CASE dealer) for five years before retiring again in 1968. Vera is the daughter of Cyrus and Laura [KIMBALL] LUTZ. She was born 27 Nov 1904 on a farm west of Kellerton, Ringgold Co, IA, spending her early childhood in Iowa. At the age of three, they moved to Hartford, Kansas. She attended school there until about 1916 when they moved back to Kellerton. She graduated from Kellerton High School at the age of 15, and attended Mt. Ayr Hogh for two years, receiving Normal School Teachers Certificate. After her 18th birthday taught three years in rural schools. She and John were "high school sweethearts". She then moved to Colorado to marry John. In La Junta, they joined a square dance club that was the beginning of a life long interest. They taught square dancing at the USO in La Junta during World War II, and Vera also taught the Girl Scouts in La Junta. In Lamar, she also taught square dancing to the girl scouts, and a boy approached her asking if he could join Girl Scouts since the girls seemed to have so much fun! The Lamar Dudes and Dames began in 1949, lasting until 1981. Ten children started, and grew to 500 in 1957, and was limited to 600 each year thereafter. She taught nearly all forms of dancing, except tap and ballet. Originally they raised money for Polio with \$5000 by 1959. Later contributions were to Cancer, Heart Assn., a local school for mentally handicapped, and later a Korean orphan. By 1979 a total of \$15,000 had been raised. Vera taught and John handled transportation and chaperoning on the 22 annual trips to national square dance conventions, appearing at the Des Moines Veteran's Auditorium in 1960 and the All-American Dance revue in the 1970's, just to name a couple. Representative groups have appeared in more than 14 of the largest cities, including Hawaii twice, and many Colorado State fairs. They have on TV many times and winner's on Ted Mack's Amateur Hour. Vera was nominated as Colorado Citizen of the Year in 1956. She has been cited by the National Geographic Magazine; Congressional Record of the United States; Citations of Governors of Colorado; National Jaycee's Polio Foundation Award; and 4-5-6-7th editions of Marquis's WHO'S WHO of AMERICAN WOMEN. Vera belonged to Eagles Auxiliary; Zonta International; U.S. Platform Org. Business and Professional Womens Club; President of Columbine Girl Scout Council; and has received the coveted Blue Thanks badge from the Girl Scouts. Also was a leader in 4-H and Boy Scouts before the organization of the Dudes & Dames. She is

listed under the 1976 list of distinguished citizens honor roll of Ringgold Co. She was nominated by her cousin, Clifford Nichols. John and Vera both belong to the Presbyterian Church. They jointly celebrated their 90th birthdays at a Lamar reception 16 Oct 1994, and celebrated their 69th wedding anniversary on 17 Jun 1994. Their 1994 address is: 100 San Carlos, Apt 104, Pueblo, CO 81005. They were the parents of three children;

@APPENDIX(LETTERS OF GRANDCHILDREN OF MALINDA FRANKLIN SPENCER)

@APPENDIXSECTION(Letters From Aunt MYRTLE [SPENCER] CUMPSTON to  
Illah [SPENCER] ELLIOTT - 1916/17)

@ADDRESS(Davistown, Pa.

Feb. 11, 1916.)

Dear Neice Illah. - It has been so long since I ever got a letter from you not since you became Mrs I guess, And then your letter came to me at a time when letters were @U[so] welcome. I was awful sick when I got your letter wasn't able to sit up to read it but they sit a lamp on the stand by my bed and I layed down and read it. I am better tho now but I'm not well by any means. I just can't gain strength as it seems to me I should. I haven't done any hard work yet. I bossed the washing this week but @P[Denny & Vesta] done nearly all the work and I have run the sewing machine a little too but I can't only run it a little while ech day. @P[Denny] is getting better too. He is going to work again Mon. I don't know how his back will stand it. He had a pretty badly sprained back. There is so much sickness around here now. But we are having all kinds of weather here. Its cold and snowing then turns warm and it rains and is muddy. But to be honest I never did see such weather. Well about the pictures I guess they was pretty good of all of them. They didn't suit me so very well but then we have a poor way to get a picture and no up to date artist. And about yours & Marks pictures I thought it was just splendid of you and supposed it was of Mark but he is like you say of my children he has grown some since I seen him at @P[Eureka] some 17 or 18 yrs ago and more than likely changed quite a bit. And don't forget to send me one of them groups when you get them. I just bet you did enjoy @P[Bert's & Rubys] visit. It made me homesick too when I heard they was coming home. I would just love to come home now since I have been sick. I think a little rest from the children would do me good but there is not enough money in the treasury to make such a trip now. But I think sometimes it would do me a world of good if I could just leave all these cares for a little while.

Yes I seen by the papers you & Mark were tusseling the measles and @P[Marie] says @P[Sayde] is just getting over them. They had a big protracted meeting at Davistown. This winter they had 47 conversions. @P[Denny & Eldred] was both converted. I never got to go only two nights. I went the first Sun night and the last night but I was sick during all the meeting except the first week and they held it five weeks. I wasn't really able to go the last night but Denny insisted on me going so and helped me get ready and I bundled up good and I didn't see as it hurt me any. But I was still weak.

Well Illah I guess I have written all I know and I'll not tire you with a long uninteresting letter. But write often you don't have so much to do as I do and when you know of something that would interest me just sit down and write don't make no

difference if you had written last. I guess @P[Lola] has forsaken me entirely but poor @P[Lola] I guess has her hands fully anyway. Tell her I got @P[Baby Joes & Ruths] pictures and many thanks for the same.

How do you think mamma is by this time. I do wish she could only see to read my letters and write too me it just seems like I lost @P[Ella] and her both that I can't write or hear from her. Wasn't it sad about Mr. & Mrs. Glendenning? It made me feel so sad for them girls but I suppose it was Gods will to take them both then one wasn't left to fight this battle alone.

@CLOSING[Well Good Bye

With Love to all

@ADDRESS[Davistown, Pa. 2/2. "17

Ground Hog Day.]

@FLUSHLEFT{Dear Niece Illah-}

I expect you think I'm a great one for not writing to you sooner and excepting my Xmas gift. Well I'll have to tell you about it. I never got it until the 17th of Jan and the envelope was all busted out on one side but I guess everything was in it all right. I was awfully glad to get it for I had begun to think I wasn't going to get anything and your handkerchief was all I did get so you may know it was appreciated but I have been awful neglectful in telling you so. But you know its so easy to "Never do today what you can put off until tomorrow." And I have been real busy. Sewing some while @P[Denny & Eldred] are both gone and I don't have so much cooking to do. I have been crocheting some too this winter. I made me and @P{Vesta} each a corset cover yoke and am making an edge for a center piece now and have made several little edgings for underwear and collars and such. I have a waist piece for @P[Vesta] & myself to make yet then I think I'll have to stock up again. But protracted meetings begin at our church in Davistown next Mon night and I don't want to have any sewing on hands then. I want to attend all I can but the kids have all been exposed to the French measles and if they take them I expect I'll not get to go to meeting much.

We are having a real winter day today. But the sun shone awhile long enough for the groundhog to see his shadow. But it's been been snowing by spells most all day. And its awful cold I can hardly keep warm. But last Wednesday was like a Spring day. Oh so awful warm had the door open that day. And quite a thunder storm at night that didn't sound good to me. I was expecting a cold spell after that. How is everyone out there. Is your mamma any better and have they a place to go to. I guess they are in the same boat with us they have to move and no place to move too.

We want to buy a small place if we can find any to suit and the price isn't too high. I am getting so crippled up I can't move

all the time. Just sort of waiting until @P[Denny] gets time to look around. He and @P[Eldred] are both working down at East Riverside. @P[Denny] is drilling & @P[Eldred] tool dressing. Denny gets 6.50 & Eldred 5.50 per day and they have to pay 1.50 per day for board. Everything is so high is almost impossible to live. the kids are all in school. @P[Vesta] takes the rural ex in the spring. Her and Velda each won the prize for getting the most headmarks in spelling till the first of Feb. Now they are trying for the next three months. @P[Velda] hasn't missed a day or been tardy this term which began in Oct.

Are you folks going to stay where you are another year? Did you get lots of pretty things for Xmas. Oh yes I got @P[Madges] picture to. Have you ever been up to see ma since Mrs. Lester has been there? I'm so glad they got someone to stay with her.

How is your chickens doing this winter. Mine is doing alright but not laying any eggs. Ha Ha. They seem to have good appetites. I only have 30 pullets tho and they were late so I don't expect many eggs from them. Eggs is only 40 and butter .45 cts here just like eating silver.

Well I guess this is all this leaves us all well only colds and I hope it finds you all well and all enquiring friends.

Write again soon. Maybe you don't have quite so much to do as I have and can write oftener.

@ADDRESS[Julian, Montana

@FLUSHLEFT[Dear Bro & Sis]

Will try and write a few lines this eve. How are all of you folks by this time. We are all feeling fine as a toad fly. @P{Bert} and I have been working on a cow shed - tore one down and moved it have got it about up again. Will finish it to morrow I guess.

Thinking about going to a horse sale Thurs and see if I cant get me a team of bronchs - good horses are hard to buy unless your a millionaire. Sent to Monkey Ward for a wagon. I expect it is in Whitetail now. Crops look pretty good up here but are needing a rain Bad. How do the crops look down there. I have about forgot but I suppose you are doing a little Harvesting.

Got me a farm down on the Fort Peck Indian Res. about 20 miles S.W. of Scoby - good vacant land is about as scarce as hen teeth.

Mine is most all good but is strung out in (is ?) quite a bit.

I am just about 3 or 4 miles from a railroad survey a branch out

from the Great Northern. I guess I will Beat it down there next week and build me a house. Mamie and I and the Boys were up to @P[Uncle Cals] Sun P.M. When we got about up there we met them going to church so we went to church too the firs time I had seen a preacher since we came up here. How was your strawberry patch this year. It was a most to dry for ours so It didn't amount to very much. I hired a fellow to tke us in a car to look for land.

It was some nice little car ride. Went to Glasgow - seen all kinds of land. It rained on us about half the time - were gone five days.

Well I am getting sleepy I guess it must be getting about my bedtime so I will close hoping to hear from @U[Both] of you soon.

@FLUSHLEFT(Dear Bro and Sister,)

Rec'd your letter some time ago was glad to hear from you but didn't get around to ans very soon it takes quite a bit of writing to ans them all. We haven't heard from any one down there lately but @P[Lola] & guess she is the only one that has time to write. @P[Berts] got a letter from Ma yesterday. We haven't got a letter from her since way long in the summer. I guess she thinks we can read their letters and make one letter do for two. We went up to @P[Berts] yesterday afternoon and stayed for supper. They are all feeling fine I guess @P[nobody ever gets sick in this country though haven't any of us been off feed a day since we came up here.] @FOOT(Lloyd died in October of the flu epedimic. Note letter written in October by his brother, Bert). Have been having some nice weather lately it is pretty foggy today but not very cold. Where did you spend Christmas. I suppose ever body was out throwing lead at the cottontails. That's one thing I don't like up here. I can't shoot cotton tails. When its moonlight a fellow stands a pretty good chance a getting a Jack. I killed one the other night saw a dozen but only had one shell. Have got a full box now so just wait till it gets moonlight again.

@P[Bert] and I got our cards from our questionairs. We are both in the fourth class. Has Forest M. got married yet. Haven't heard from him since he left. What is @P[Percy] going to do run a kid wagon.

How is Gramma S. is she at home or is she stay at @P[Aunt Eva's].

Well I have sat here quite a while and can't think of anything more to write so I guess it is time to close for this time.

@FLUSHLEFT(Dear Bro, Sis and Neice)

Will ans your letter we recd some time ago. This writing is a job & dont like very well but I sure do like to get the answers.

Congratulations I suppose you got what you ordered nearly every Body does. Her is hoping the next will be a boy. The weather is pretty fine up here now had one snow in last three weeks and it has been real nice most of the time. It looks a little stormy to night. I believe I would just as soon winter up here as down there if I had plenty of feed for the stock. The cold hasn't bothered me a bit and there is sure lots of cheap coal in this country. We have been living in two rooms 12 X 16. and they are both pretty warm. I haved bought 2 ton of coal since the 1st of November and have got more than enough to do till the first of April.

What is @P[Uncle Charley] going to do next year. We have been looking for a letter from them for quite a while but haven't heard from them yet.

I suppose @P[Cecil] will build him a house on Sheldon Height in the Spring. There isn't much excitement going on up here, a little dancing once in a while.

We were up to @P[Berts] last night and spent the evening - didn't stay very long got home in time to do the chores this morning so we have been sleeping most of the time today. Well I guess I will quit and go to bed. As ever @P[L W Spencer.]

[Footnote written upside down at start of letter, "How is the folks have been look for a letter from Pa for 2 months."]

@ADDRESS{March 12, 1918}

Well I thought I would write a little more before I went to the P. O. We are looking for Forrest back about the first of April. He wrote and said he would be a married man when he got back so I suppose we will be traveling toward the homestead about that time.

How is wages down there this summer some of the single men have hired out for \$75 a month. I think I work out most of the time and let Mamie and the Boys hold the claim down.

Well I quess I will close.

@FLUSHLEFT(Dear Bro, Sis & Family,)

Will try and scratch around over this paper awhile and see if you can make it out. It more than likely give you something to do for a few days. Rec'd your daughters picture the other day - it is sure some dandy looking kid favors both of you some I guess.

How are you folks getting along at the present writing. We are all feeling fine and dandy.

How are the folks. I wrote Pa last winter but haven't heard from him yet. I suppose you have all your corn planted by this time and digging into it about ever day to find out how much you are going to have to plant over. Haven't had any rain to speak of for quite a while but it has been trying to rain for about a week been pretty cold lately wheat and oats look fine I guess cool weather is what they need. A fellow still needs his sheepskin coat if he is going to be out after night.

I planted some potatoes about two months ago but can't find any coming up yet. I planted them in a furrow when I was breaking the sod and I guess it is going to take them all summer to get through. Had some bad luck since we came down here the cow I bought of Bert last spring died. Don't know what was the matter with her. I guess she didn't like the location and so we don't sell much cream and butter. All we have to to milk now is a yearling Holstein steer.

It is sure tough when a fellow loses every darn cow he has got. Have got a dandy mare colt. It just about keeps me busy keeping my horses at home. Haven't got any fence yet.

Horses sure do fine up here. Mine had ought to they have about 1000 acres to sum over. Some times I find them about 3 miles away. The grass is sure growing fine up here. There is lots of vacant land around me but it isn't much good only for pasture.

There is some good land not very far south that a fellow can contest and get. It is 7 dollar land. Several new families have moved in this spring.

I don't think I will have to go to war for a while yet any way. There has been several went from around here lately. There is three Germans live about half a mile from us that it would hurt me much to see go.

Well news is pretty scarce up here so will close hoping to hear from you soon.

@P[Haldon] can't wait any longer for me to write and ask you about his cat. Is it still alive? He wanted to know if I didn't think you could send it to him, ha. ha. We don't have a cat now & they are crazy for one.

This is going to be a nice day after all I guess. It was awful cloudy when we just got up but the clouds have all rolled away & the sun is shining bright. Our garden is all made. Peas are up quite a way but the chickens eat everything else that dares to seep through the ground.

I do not have any chicks and don't think I'll raise any this yr. Our hens are not laying now - guess we don't feed them enough. @P[Lloyd] intends to go to Scobey some time this wk to get lumber to build a barn. He dug a cellar a couple of wks ago but haven't got the house moved over it yet.

We got the babys pictures. She sure is a fine "little lady". Looks real healthy. I think she favors you rather than @P[Mark].

I see my neighbor has put out a big washing, look awful white from here. I like her fine. She lives 1/2 mi. and seems to be a fine woman. I haven't met very many of the neighbors yet. Everyone is busy so don't visit much. I like it O.K. down here. There are a few more hills down here than up where @P[Berts] live.

We are about 2 1/2 mi from West Branch of Popular River & @P[Lloyd] thinks he will go & get some posts for fence along the river.

We are about 40 mi north of Wolf Point. They are trying to get a Post Office out here & have the mail brought from Wolf Point as that is the main line & the mail would come more direct. I hope they do as we only get our mail once a week now.

We have a fine little colt but lost our cow about a Mo ago. @P[Lloyd] was up to @P[Berts] 23 days. We got awfull lonesome & were sure a happy bunch when he got home again. I don't have much to do so get awful lonesome when @P[Lloyd] is gone. @P[Chas] is always out with the other boys so the house is pretty quiet when they are playing out doors.

@P[Haldon] talks a good bit about the things he & @P[Arzell] used to do. He remembers most everything. He is always telling me he wishes @P[Avis] was here to wash him & comb his hair, says she isn't as rough as I am. ha. ha.

Will write a few lines this eve. This is Sunday and a hot one to looks like it was going to rain. What are you doing down there. I have been putting up a little hay hauled it over to Shipstead and sold it. We had lots of rain here week before last that will do the late crops lots of good. I thought I would get some breaking done before it dried out but it has been so hot since I hated to work the horses. My little colt has been sick to day. I don't know what is the matter with it. It had a spell once before it seems to be feeling a little better now.

A few are commencing to cut their wheat. Claude wrote to @P[Berts] and said you folks and Ras Rush were coming out her this summer - have been looking every day to see you show up but no body in sight yet.

I suppose it will turn out to be all a fake. We were up to @P[Berts] the 11th of July and stayed till the 15th. We all went up to @P[Uncle Cals] on Sunday for dinner. Berts crop looked pretty good but it was so dry it will be pretty short. Merle is in St. Paul - he is conductor on a street car.

How is @P[Marks] corn. We got a letter from them a few days ago and he said the corn on his bottom was the biggest he ever seen it. Tell him he had better trim it off a little - thats the way I do the corn on my toe when it gets to hurting to much. That is sure some place to have a corn - he must not have much to do if he has set around that much. (Ha Ha)

Will try and write a few lines to day - was glad to hear from you and sorry to hear about @P[Avis]. Hope she is all right by this time. Who were the Boys and what did they do to them for running so fast.

I have been trying to go down to the Homestead but the weather has been so threatening I hated to start out but it just seems to threaten and do nothing so I suppose when I do go it will storm to beat the Band.

Has anybody got the end flew - endways down there. There is quite a bit of it up here. Several people have died in Scobey and a few in the country but not many. They have closed all public places all over the state.

I suppose ever body is shucking corn down there now. How is the corn. The way Floyd Mann talked the corn wouldn't amount to very much but I suppose there is some good feilds anyway. I didn't get any breaking done on my place. I am thinking some of renting a place that is already broke up. @P{Clarence} didn't show up. Haven't heard from him for quite a while.

How is Ma and Pa. I wish they had come on out here. There war sure a sore bunch up here when we got @P[Sayde's] card. We have been looking for a letter from @P[Lola] for quite a while but I expect she is pretty busy. We heard @P[Cecil's] went to Cumberland. did they move there or just go on a visit.

@APPENDIXSECTION[Letter from BERT SPENCER to Family in Iowa, Telling of Death of His Brother, LLOYD, - 1918]

@ADDRESS(Julian, Montana

Oct 31 - 18)

@FLUSHLEFT(This letter is to all. Dear folks at home.)

Well I am going to write & try to tell you about Loyds sickness. Loyds were living 4 1/2 miles from our place. On the evening of the 20th one of our neighbors come over & told us Loyds were all sick & that Loyd said he would like to have some coal. I done my chores then it was dark. So I got on a saddle horse & went over.

Mamie had had the flu but was up & around. She had a light attack but Loyd & the kids were in Bed. Loyd was working all the time he came home on the evening of the 17th; was planning on going down to his claim the next morning after a calve he had there & dig his potatoes. But in the morning he had an awful headache so he didnt go so when I was over on the eving of the 20th, I found out what they needed in the way of Groces & fuel & took it over on the evening of the 22nd (Tues). They all seem to be geting a long all right. Loyd had been up a time or two that day but he was awful weak so he layed on the bed most of the time But was eating a little & said he was glad the worst of it was over & thot he would be all right in a day or two. He had been taking salts & his bowels had been moving good. Then I went back on the evening of the 25th (Fri). Then he was delerious & had been by spells since the evening of the 24th (Thurs) with a high fever. I could talk to him then tho all right. Mamie had sent one of the neighbors in a @P[car] for Dr. the morning of the 25th But this country is full of sickness and it was pretty near impossible to get a hold of a Dr. ever Dr. & nurse have been working night and day for about 6 weeks so the man Mamie sent couldn't find the Dr. but left word where he knew he would get it for him to come soon as he got back. Mamie sent for Dr Healy at Flaxvill 14 Mi. away. He is considered a good Dr & the best in the country. They look for him all day Fri & all night Fri. expected him to come any minute. So Sat. morning I couldn't stand it to wait any longer so I started another @P[car] to Scobey 18 miles for another Dr. We chased the Dr. all day and finaly run him down, but couldn't get him. So Sat. night I sent for Dr. Ogden, got him early Sunday Morn. He told us Loyd had @P[pneumonia]. He left three kinds of medicine for him & told us to put hot salt applications on him changing them every 3/4 hr. I sure did Put them on hot, not only hot but red hot. I didnt shut my eyes or leave him a minnint from Fri evening untill the last came at (9:00 or 0:00) Sun night. Dr Healy came at 3 P M Sun. He changed the Medicine & put on flax seed poultices. He said if Loyds heart held out untill morning and he could still swallow, that the poultices would loosen his lungs then he would

give him some cough syrup clean his lungs. But he was to late. We didnt have much faith in Dr. Ogden. Poor boy how he did suffer and how he would of hated to of gone and left his family if he had of realized he had to go.

He was delierous the most of the time. There was only once that I thot he realized he had to go & only for a minute then & he didn't say a word, so I know he didnt have any mental troubles. He just slowly slipped away. Poor old mother how I do wish she could lean on my shoulders as they are broad. And our good old Dad I knew he planned all summer on coming to Mont. & seeing the boys & how they were geting along & being with them in their own homes. & Then got knocked out of it. Then see what has happened. It sure is awful. Loyd never mentioned any of folks only once he said he believed he would write to @P[Clarence] if he knew his address. I said why did you have something you wanted to tell him. I'd have him come down I would like to see him. It has been a long time since we were all together - if Clarence could have come home when we were home last, we could of all been together once more. But now we cant. My how it does hurt me to think I might have been the cause of him coming out here, and to have it turn out this way. But I am sure Loyd was going to do all right, & if I was ever able I was going to see to it that He did do all right.

Maymie & the kids are doing all right now. I will bring them over to our place as soon as they are able to be out in about a couple of days. Loyd sure was a different looking man when he took sick than he was when he landed in Mont. His face had fleshed up & he had a good healthy look. The catawah he had had left him entirely, in fact he was twice as strong, he could get out & do a days work with any Body. If he hadent of took sick just this time when there was so many others sick & the Dr. so busy, we think we could of saved him if we could of got medical aid in time altho there is lots of deaths in the army camps where they have the very best Drs. We had short out side services at the house. Mayme & the kids couldnt come out. We left the door open so Mayme could hear, then there was five cars went with us to the depot. All public places in the county are closed & all public gatherings are prohibited, We didnt know we had such good neighbors untill they had a chance to show us. Carroll Spurier & his wife & Art Jones certainly are loyal. You must all give Carroll a word or two of praise. I did hate it because there was no relative to go down with him. Of course there was no one but Call or myself & neither of us had had the influenza. I had been with Loyd all the time & I was afraid to start for fear I might take it & have to be taken off of the train before I got there. @P[Ruby] would of worried about me so & she was about sick anyway & would have been scared to death for fear her or @P[Caryl] would take it before I could get back. But we are all feeling good now & I dont think we are going to take it at all. & some one had to be here to look after Mayme and the boys. Mrs. Ludington is staying with them now. Carroll offered us his services & we knew he could be depended on. We sure was glad he did.

Poor Mayme I feel so sorry for her but she sure has been a brave

girl. Now I want you to all write to us & tell us all about every thing and every body. How is @P[Avis] she wrote us several letters & I never Ans. them. Ive been so carless about writing But we will send some of you a card at least now every chance we get. We sent @P[Clarence] a message - did he come or did you get any word from him.

@CLOSING(Will close with Best wishes  
to all

@FLUSHLEFT{Dear Ethel,}

Well the excitement of graduation has died down now I suppose and you are at home resting. I know it has been a great event to you, to say nothing of hard work. I would sure liked to have been there to see you receive your diploma. I always enjoyed attending graduation exercises so much, but we are so far from town it seems we never get to attend anything of the kind out here.

Write me all about your dress, oration, receptions, etc. I would sure enjoy hearing about everything, I read in the record News about the play. Was it given in the H. S. auditorium. Also saw that Mabel has to miss some on account of tonsillitis. I'll bet she hated to miss for it would be at the time they would be reviewing and @U{cramming} (?) for finals.

Have you a school for next year yet? We want you to remember you are to come out to see us whenever you get to making money of your own, and bring your mother along.--Provided we are still living out here. I tell Roy I won't stay another year if we have a crop failure this year, but I expect I will if he does. Ha.

We received the Easter cards your mother sent the children, they sure thot they were great. They love little chickens so much, they have just been out watching and playing with the tiny ones. They are very careful with them, have never hurt any yet. They (page missing).

@APPENDIXSECTION[MEMORIES Of HOMESTEADING  
By Bernice Sheumaker Abarr]

My parents, Roy and Goldia Spencer Sheumaker, homesteaded in the flat plains of northeast Montana, up near the Milk River. They filed claims on 320 acres of land in Phillips County between the towns of Dodson and Malta in 1914, going out in the spring immediately after they were married. Dad's brother, Charlie, went with them and also took a homestead. Their brother, Artie, his wife, Jennie and sons Earl and Vern had gone out from Iowa two years earlier and having a good crop year or so, and having raised some wheat, encouraged the brothers to follow them. They loaded their household goods and machinery and some livestock into a railroad car and headed west, as so many middle-westerners were doing during those years.

Mother had been a country school teacher in Iowa. She taught in Montana several terms until I showed up. Homesteaders lived something like a mile apart on the average and about four families provided all the children in our school. Our three-room shack was one of the more elegant in the area because we had a stained-glass section in the upper part of our front window. We were also distinguished by having a piano in our home, my mother having insisted on bringing hers with her. I know that in the first few years, neighbors enjoyed coming over to the folks home and singing. But by the time I was old enough to notice, she had precious little time for playing.

This was open range country for the most part. It was named Phillips County for a Mr. Phillips who had been a big sheep raiser and still in my day had many flocks out, with sheep-herders to watch over them in their covered wagons, I remember the dirty, smelly old fellows and their half dozen big sheep dogs and my parents would sometimes jokingly tell one of us that he was as dirty as a sheep-herder. Before the day of radio or jeep it was a very lonely job. Down back of our house about one-quarter of the mile was a small man-made lake. A dirt dam had been made in my infancy by farmers and workers with horses. I remember a few times when a flock was driven down to it to be watered. We children would stand close to the house watching the lambs and their mothers run by. No homesteader raised sheep, so they were unfamiliar to us. Sometimes one of the neighbors would dine on lamb, but it was always a straggler, lost, or in other words, snared from one of the big flocks. This seemed to be a more or less accepted practice.

The landscape was delightful to my childish eyes, as any country is to the native. There was a great long view with low mountains in the tufts of grass were sparse, though I suppose they furnished pasturage rather plentifully in spring and early summer. There was a great deal of sage brush, many wild flowers,

and a great deal of cactus. I loved the little yellow Johnny-jump-ups, and an occasional rare bloodroot. When I came to Iowa as an eight-year-old, I was amazed to see blue violets just like my familiar Johnny-jump-ups. I was most amazed also by the strange fact that the grass covered @U(all) of the ground.

Near our shack I remember the little "blowouts" that were small low spots in the ground that would hold puddles of wash water when my mother threw it out. We children loved to slip and slide around in the mud. There was lots of alkali in the soil, which didn't signify anything to us children. In summer there constant herdes of mosquitoes to bite us, and that made my mother very frustated to see us always with bites covering our legs and arms. Oh, how we did scratch them. There was some sand blowing every day and that helped a little to keep them from settling on us by the hundreds.

The only trees were the cottonwoods and willows growing in the low spots and I can remember only the willows near our home down by the lake. Of course, that was forbidden territory, for mother considered the water a great hazard for us. Dad could swim but she could not and we did not learn either. In winter a few times they cut and stored ice in sawdust in a sod house and that was exciting.

Winters were pleasant enough for me but they must have been horribly hard for my dad. I know his feet got frostbitten. He went on long trips up to the Blackfoot Reservation for wagon loads of coal, and any time that he was outdoors, although he always called it a "dry" cold, the wind cut like knives.

I can remember the far-away howl of the coyotes and I always wanted to see them up close. Our old black and white border collie, Boots, would wiggle his eyebrows in his sleep and growl. He was our very best friend, protector and companion and, if we wandered into the wheat field in the summer, his waving plume was mother's flag to locate us by. This was horse country, too, of course. Every farmer had eight to ten horses and several riding horses. We had two bay riding mares and my dad loved them. One spring when I was six, he had remarked to mother that I was about old enough to bring in the cows. Smart as Boots was, I suppose he couldn't do it alone. So one afternoon, when Dad was plowing, mother put me on old Betsy and set me off to bring in the cows. But I was very tiny and inexperienced! Betsy galloped past the cows as I were a grasshopper, pulling on her reins and made for the farther range where the other horses were grazing. I was completely helpless and getting more and more frightened, barely able to hang on. Thank goodness, just as we reached the herd, another galloping horse came up behind me, and there was Dad on old Winnie to pull me to safety. This was country that was dotted with prairie dog holes, occasionally larger holes, and it was not unheard of for a horse to step into one, break a leg and throw a rider.

The little prairie dog towns were fascinating to us. We decided the dogs were mighty smart for they could disappear into their

holes quicker than I could blink. There was always a lookout doing guard duty and he never slept at his post. We saw lizards and a few snakes and admired their interesting skins.

We began school in a typical one-room country schoolhouse. My first teacher was a young woman of minimal training. But I was eager to read and learned readily. The State of Montana furnished school books and materials more liberally than was then true of Iowa. This, I understand, was because of income to the state from mining.

I had a classmate named Lundstrom of Norwegian ancestry. Another family of children were named Weist who were of Dutch ancestry from Pennsylvania. My sister Frances started to school two years after I did. Roy, Jr., Clinton, Eunice and Elizabeth were too young to go to school when we moved to Iowa in 1924.

In the fall of 1923, with five children, Mother was driven by finances to teaching again. She obtained a young hired girl and then became my teacher. She was strict and fair minded and, I'm sure, superior to all my previous teachers. A poor crop year and the need for \$100 a month salary were what made her attempt it. But another pregnancy caused her to resign that winter. A new teacher came and she boarded at our house. She became ill after about two months and it proved to be smallpox. The doctor vaccinated us all but it didn't take on my dad, who was very ill. In the early spring when we had all gotten back to normal, we spent a day outdoors and fumigated the house. That was a picnic.

Mother had been ready to leave Montana for several years. That fall my dad agreed. Her parents had moved from their farm to Mount Ayr and were out of a renter and they offered to rent the home farm to us. Mother brought us six little ones on the train. We changed trains in St. Paul and it must have been quite a job for her. Dad brought the household goods, the dog who was most important to us children, and a dozen head of western work horses in the box car with the intent to sell most of the horses at a profit, which I presume he was able to do.

In Montana Dad raised purebred Shorthorn cattle. At one time he bought a registered bull from one of his former Iowa neighbors, Stuart Hoover, and had him crated and shipped to Montana. In spite of all the hard work, he and many other homesteaders could not make their dreams come true, and, in debt and discouraged, moved out.

The people were a rough and friendly lot and life was very simple with few luxuries. But there was something about it that many of them came to love. Our dear bachelor, Uncle Charlie, refused to come back to Iowa. But in the passing years, his loneliness drove him to alcohol. Uncle Artie's wife became withdrawn and anti-social.

@ADDRESS(Whiteley, Pa.  
Sept. 21@U[st], 1920.)

@FLUSHLEFT(Dear Niece & Husband;)

As I opened the Record News to-day my attention first fell on the death notice of your little @P(Doris). I could only drop tears of sympathy for you altho I never seen the little darling only in her picture it made my heart sad to think such a bright child would have to be taken so soon. Why - We know not, - nor is it in our power to stay the hand that takes them from us. We can only hope to live so as to meet them again. I seen by the last paper your children had whooping cough but never thought of anything so serious. I got a letter from @P(Orin) but he never said any thing about it. But I suppose he thought I had seen it in the papers. But I never get my paper for a week or ten days.

We are all pretty well what is here. Only me and three youngest ones. @P(Denny & Eldred) are in W. Va. and @P(Vesta) is helping a neighbor lady for a while. We are having it pretty warm and dry now. But we have had an awful wet cold summer. My garden didn't do much good. The blight got the tomators that I got to can 8 qts. And Lima beans and nearly all kinds of beans just rotted before they matured. I think we will have a good many potatoes. I haven't dug them yet only as I use them and they seem plentiful. I have canned 47 qts. of peaches. Want a few more and 23 qts of pears. will have 2 1/2 or 3 bu more of pears, and I put up 40 qt of blackberries. But I'm not getting the garden stuff put away I usually do.

Well I guess this will be all.

Hoping little @P(Zoe) gets along alright and this finds you and Mark well. I close -

@FLUSHLEFT[ Dear Ilah,]

Just a few lines to thank you for the chicken and other things you sent. We got them in time for Thanksgiving dinner and the chicken sure tasted good --

We still have enough left for supper tonight --

I suppose @P[Lola] has told you about @P[Sayde] as I wrote her a letter a few days ago. She couldn't be at home but I took some of the chicken over to her. We went over to see her again last night and she said she was feeling better. The Dr just said she had hemorrhoids and that she couldn't treat her self and wanted her to go there and stay until Sunday. But @P[Sayde] said they hadn't given her any treatments yet only shot some stuff into her arm. I suppose he will let her come home Sunday though.

Nell O. has been going with a fellow - she says he is 35 but he looks 45 to me. I guess he must have lots of money. Anyway yesterday afternoon Nell called and said they were going to take some flowers over there to @P[Sayde] and would take us to. I never saw such a gorgeous bunch of flowers in my life. A dozen of those big chrysanthemums and another big bunch of smaller flowers. They nearly filled the room. He took her room number and said he would send out a barrel of magazines and some candy.

As we came home he stopped and got @P[Marie] and I a big box of candy. I suppose he thought he was making some poor little waifs terribly happy - Ha -

Well it is 1:00 o'clock so I must get busy. Have lots to do today will write more later.

A most unique way of passing along a message and by-passing the postal system was found by @P(Sayde [SPENCER] PHILLIPS) - then Sayde SPENCER. Working in a clearing bank in Des Moines, she noted a cancelled check going through of her brother in-law, @P(Mark ELLIOTT). On a narrow pink piece of notepaper marked @B("CHARGE"), she scribbled the following note and pinned it to check with an ordinary straight pin. [Check was dated @B[April 20, 1921], and to H.A. Childs, M.D., for services for Doris who had died the previous August at the age of nearly three.]

We got the pictures. @B(Zoe sure has grown. She is prettier than she was.) We agreed on them nicely. I wanted the one with the dog & @B(Avis) the other.

May be home next mo. I will take my vacation, a week in Aug or Sept.

Dear Sister & Family)

I haven't been able to write you on a/c of having no paper - couldn't remember to get any. I made a mistake tonite & got hold of some of @P(Phil's Mother's) but she will never know the difference any way.

@newpage

How are you all down there? Haven't heard from any of the folks but @P(aunt Sadie & Arzell), But I guess that is all I can expect.

We are getting along just fine. I like it out here just fine. I believe I would rather live with Mrs. Phillips & work downtown than stay home & do housework. She does all my washing and ironing etc. so that is pretty nice. I have had to do it for myself for so long.

This summer, so far, has been an ideal day for working in the Bk but don't suppose it has been so ideal for you has it? Sure has been funny weather. We have been trying to get some pictures but haven't had much luck yet. Took a roll yesterday & not one was good enough to develop. Guess the sun wasn't bright enough. Some we took some time ago were not so bad & we'll send some of them if we can't get any better ones.

Haven't seen @B(Avis) for some time. Tried twice tonite to call her but suppose she isn't home. I am going over one night this wk & we are going to make @B(Mommies) curtains.

Phil is out picking cherries. We have had quite a few. I heard the folks had quite a crop of Strawberries? @B(Arzell) said she was quite stuck on the job. @B(Phil) read her letter & he thot @P(she was quite witty.)

Have any of you heard from the boys? I sent them announcements but of course they don't have my address. How is @B(Mark, Zoe & the Twins?) Suppose I won't know the @P(twins) when I see them again.

Will close as I haven't the heart to use any more paper. Ans.

Sunday [postmarked 20 Sept 1925])

@FLUSHLEFT(Dear Ilah,)

Received your letter the other day also got one from @P[Lola] - I guess you both took the notion at the same time. @P[Sayde] was over for an hour or so this morning. I was so sorry we couldn't go down there today. Seemed like we had all our plans made and it was almost impossible to get away. We could have only come for the day and @P[Sayde] hardly felt like she could make the trip in one day. @P[Bill] came out our last night all set to go to Minn. but I felt like that will have to be called off. Our plans are now to stay in DM until after @P[Clarence & Alma] go through here and then @P[Sayde] is going down home on the train posibly Fri morning. Then @P[Bill] and I will drive down Sat - also @P[Phil]. I thought @P[Bill] and I would be at the folks Sat - then after supper Sat night, we might drive out to your place Sunday. We will probably come back Sun. eve or Monday as @P[Bill] has to be on the job Mon. It will be a rather short stay but I expect to be down later for a longer time after we get our apartment fixed up.

The girls at the office had a luncheon for me Sat. Marie & Rhoda gave a lovely reading Lamp, and the other girls gave me linen lunch cloth napkins. It is so pretty. Friday night at the office I sure went through a terrible ordeal - all congregated at a quarter of five. They presented me with a beautiful picture. One I have always wanted. It is quite large about 18 X 35. The fellow that did the presenting pulled a lot of sob stuff, until he got every one all weepy. Everyone said I was the only calm one in the bunch but I sure felt far from composed.

We are going to be @P[married] Tues. afternoon at the Central Christian Church. My dress is dark blue & tan. You will see it later. We are going to live in the Winona Apt. Think I will like it fine but we can't get the apt until Oct 1st. Guess we

will buy our furniture next week. Bill's unmarried sister called me Fri to lunch with her. She is real nice - I imagine about 35 yrs old.

I wish I had something to send you & maybe I will find something when I get started to packing. I have been sending all my old clothes to @P[Arzelle] until I don't have much on hands---. You will have to pass this letter around & let the folks know our plans as I won't get to write to every one. @P[Lola] asked what size my pillow cases are. Tell her they are 42 in. I am going to quit for today.

@APPENDIXSECTION(Letter to ILAH [SPENCER] ELLIOTT & Family from Her Bro, CLARENCE SPENCER)

@ADDRESS[Guernsey, Sk  
Ap. 6th 1930]

@FLUSHLEFT[Dear Sister & Family,]

Received your letter some time ago. Was glad to get It. Shld have answered It sooner but seems like hard to get started. Have had very nice weather the Last week. Most of snow is gone Except where the Large drifts was - have Just started to running the cars the last 2 or 3 days. Bunch of men trying them out today don't think they are venturing very far though. Will be starting to seed In a few days If It keeps up this way a few more days - see they have started already in Quite a few places where the snow left sooner. I have sold all the roosters except one that I could spare very well. Have sold Quite a few settings of Eggs. Shipped one yesterday and 2 more for Monday or Tuesday. That will finish up what orders I have In Hand now expect to set the Incubator In a few days expect to set It with Eggs I ordered 100 from New Jersey. I have them on Hand now - came the 2nd. I told them to ship on April 1st. The Beggars sent them Mar 27th and sent

order to North Carolina and Both of them to be shipped April 1st.

Now the way them guys Done In N J is going to Make them arrive about 1 week apart. Not so good but maybe It will be alright - but If they would have none as told to they would have not been More than 1 Day apart at most. I wrote @P[Uncle Orin] about his chickens - seen he won some prizes at Mt Ayr In the Show there. Wanted a few particulars about them If they was good enough would have ordered some eggs from him but the Bum never answered my Letter so that Lets him out as far as I was concerned. Maybe he thought they was not good enough. @P[Aunt Julia] has them advertised In the paper for 75c per setting. I get 3.50 per single for mine or \$6.00 for 2 - and the ones I ordered were \$15 and \$24 per Hundred. Maybe I can get a few good ones out of that bunch If I have good luck hatching them. At Present I have only 35 Hens and Pullets. Thats about enough anyway have getting 22 to 29 Eggs a day from them for Quite a while now. They started Laying on Jan 19th but I guess need a Little Better Henhouse to get them Laying Earlier. At present have only one Layer of shiplap and 2 Layers Tar paper - but some of the Roosters frosted their combs a Little and I don't like that when you want to sell them or show them - but think I will line them on Inside this fall and they will be alright. That 52 below stuff is hard to get by - but the ones I have been showing got by OK through the cold Weather - have had very good Luck at the shows this spring;

@VERBATIM{Yorkton Winter Fair and Poultry Show

1st - 3rd Cockerel  
1st - 2nd Hen  
1st - 2nd - 3rd Pullet

Saskatoon

1st Cockerel  
1 - 2 - 3rd Hen  
1 - 2 - 3rd Pullet}

Regina - 2nd cockerel 1st sales cockerel 1 - 2nd Pullet - 3rd & 5th Hen 1 -2nd In Laying Class and 2 - Special Ribbons for Best color Female and Best Type Female. I may take a few more shows next winter - Saskatoon and Regina were Provincial Shows or Fairs. You would call them (State) down there. Yorktom was all Poultry but other Two were Livestock and Poultry Both. May send some to Alberta and Manitoba Provincial Fairs next Winter and try and bump some of those guys there If I have good Luck.

@P[Percys] had bit Luck - see he is going to have a sale or has already had it. What does he intend doing - I get all the News In the paper -have been taking it for several years bit of course theres Lots of local stuff that's not In It.

I wonder where that Chain Letter Went to some one must have ditched It - have looking for that for Couple months. That Bird (referring to brother Bert) in Montana is the Berries usually takes about 6 weeks to get out of there. Its about 2 days mail distance away but usually arrives here about 3 weeks after he dates It. You cant fake the Post Mark on them Very Well. How is the folks getting along and what does Pa do to keep him busy - don't get any Letters from them anymore. I wrote them just before Xmas but no Reply so far. I had that Country Guide sent

to @P[Lola] too I reckon she Is getting It alright. Thought you and Lola's might Like It some things will be Interesting I suppose and other Quite out of date - but will give you a general Idea about some things they pull off up here - and some things they have plenty up here too you won't find advertised In the Farm Papers though. Its a very good advertising Paper though. I didn't advertise anything Except the Roosters - that and the shows have been all that I have needed for What eggs I have been able to furnish so far. @P[Floy] and @P[Russell] are both away - have been away since Last August. @P[Floy] thought she would sooner be a Telephone operator than anything else seems to be making It alright so far. @P[Russell] is at North Battleford - working for a Transfer Company.

If nothing happens expect to be down there probably during the Month of July. Not sure as to Time Just now and Most Likely a Week will be the Limit but will stretch It out a few days If possible for the CPR to agree to that arrangement but Its almost an Impossibility at that time of the year though. Well I guess had better Close for this Time.

@FLUSHLEFT(Dear Aunt Ilah & Family;)

Don't die from shock, was honestly intending to get this written right after we came up this spring but one thing after another. It seems when all else is done I've always a pile of "holey" sox staring me in the face. Tonite I was lucky enough to find @U(him) a pr all in one piece or quite likely I wouldn't be writing this even now. Are your "men" so hard on their sox? Maybe you don't mind mending them like I do.

How were your crops & garden. We had a wonderful crop "coming up" and then the rust came & ruined it. One might as well say its a complete failure. Last year it dried out. I'm so sleepy I can hardly keep my eyes open.

@P(Marilyn) is going all over, not walking alone of course. She shoves a chair ahead of her & horrors! I was upstairs today. I could hear her patting the stairs & I looked down & she was half way up. I nearly died before I got down to her. She looked up at me & giggled & waved her arm around in the air & I expected her to go over any minute. She has five teeth. Aside from that & of course being lots bigger she hasn't changed much

from the picture.

How is @P(Aunt Avis)? I haven't heard anything from any one down there. I haven't seen the folks since the fore part of July. They were up for a week then. How are the kiddies? I wish we could come down and see all of you. We haven't a car and can't even go see the folks & right now I'm homesick. There's a fellow from Scobey up here & he came over to see if we wanted to go back with him & we can't. @U(I) can't even go, makes me sick. He's going back in the morning, "Baloney".

I'm going to say sweet dreams & hit the "hay". Hope you like the babys & moms pictures. Write if you can.

@APPENDIXSECTION{Letter from ILAH [SPENCER] ELLIOTT to Her Daughter, ZOE NICHOLS - January 1941}

@ADDRESS[Tues. evening  
(Postmarked Mt Ayr, Iowa,  
- Jan 29, 1941)]

@FLUSHLEFT{Dear Zoe: --}

We were glad to get your card this morning telling us you had a good trip home. It was a good thing Don didn't decide to take a girl home from the show with his wife slipping home unexpected. I've sure been lonesome since you went home. Haven't felt like doing anything but believe I feel better today - am getting awful tired laying around.

We were glad one passenger didn't show up I was afraid you would be pretty tired if you were too crowded.

Loren's little lamb died and there isn't anymore yet. Dad didn't go to Keenan's sale but grandma said grandpa went with Den & Alice and he tho't they had a good sale.

Well the pictures got taken yesterday I sure hope they are good. Lois looked real nice I tho't and she was terribly thrilled over her dress. I told her after you were gone I was afraid she hadn't told you how much she appreciated your going to so much trouble for her - she was afraid she hadn't too. We'll make it right as soon as we can. Pauline sure liked her dress awfully well, too. Dad said you needn't to worry about him he didn't notice.

I made a 1/2 gal. chocolate ice cream this morning just enough for dinner and supper but it's so good wish I had made the freezer full.

Aunt Lola called me yesterday me - she had a letter from Aunt Ruby. I am anxious to read it she was going to send it down to grandpa's. Ruby said they took Bert to the hospital Monday morning and he died Tuesday morning at 6 o'clock. They buried him in Scobey that is about 20 mi from them and she and Carol hadn't been home since they were staying with Billie's sister in Scobey. Billie enlisted in the British Army last August and isn't home now - he expected to get a Furlough Feb. 10. That makes it worse than ever - him not with them either. She said she heard from Clarence and he talked like he would have come if she had given him time. I tho't she buried him too soon. I didn't understand it maybe that's the custom up there. She said everyone had been awfully good to them - some of the neighbors were pall bearers some that had been up there as long or longer than they had.

Violet [Hutchinson] Griffin was killed in a car accident last night we saw it in the paper today. She was Ilene's sister you know. It was sure too bad. She had four children - her husband and the children were hurt some too.

Bill Hobb's have another boy arrived this morning.

Laird's carried the mail yesterday and today but the drag went along this afternoon so I suppose the carrier will go in the morning - he could have gone before I think but he tho't that it was a good excuse I guess.

I finished my scarf I was making for the radio table looks real good I think. You measure your little table and send me the size and I'll make you one. Started your pillow slips last night going to be real pretty I think.

Pauline came home with her hair just fuzzed. I don't like it very good yet - it's so fuzzy around her face but I suppose it will straighten out a little.

It's seemed to have warmed up this evening the forecast is for fair and warmer so I think we'll wash in the morning.

Didn't the girl take her vacation or did they get some body else?  
We wondered.

I guess there was a big crowd at Church Sunday afternoon all the downstairs and a good share of the galleries full. Grandma said that the fellow that played had some kind of a chime attachment that sounded fine and Aunt Dode was trying to get Amy Sheumaker to get that.

I talked to Ara Gieger last night and she has twin grand children. I ask her what they called them she said they named them Larry Duane and Lavaun Elaine but they called them Sonny and Sue all the time. She didn't know whether they would ever get to calling them by their names or not.

Mrs. Lance asked Mrs. Hobbs what Bill's called their baby she

said they hadn't decided. Mrs. Lance said she expected she had a half dozen girls names picked out. Well I guess this is all for now it's time to get supper. Did you hear "Cap January" last night? It was good but not exactly like the picture.

@CLOSING[Write again. Lots of love

@P{Mother}]

@UNDENT[

@ADDRESS[Tues. afternoon  
(Postmarked June 11, 1941)]

@FLUSHLEFT{Dear Zoe:--}

I meant to write this morning before the mail went but got up with the sick headache and had to go back to bed. I don't know what makes me have it so much lately. I feel better this afternoon but haven't been able to do anything. Mark & Loren went to town. Rock chicks. They've made extra work. So altogether it's been a little too much. Dad has been gone nearly all the time too.

We planned to go up to Grandpa Spencers for dinner Sunday but it rained nearly all day. Jeters came Sat. night and took Lois to town. He called her Friday on the phone.

Mrs. Mack has been sick in bed since Wednesday - don't know how she is today told Dad to stop and see.

Loren & Lois got some nice graduation gifts from Aunt Sayde. She sent Lois a blue & white night gown, made real full, and Loren a dollar bill. He said he tho't he would get a new belt.

He got an application to fill out from Ames for a Sears Roebuck scholarship. They said Clifford Johnson and Henderson had recommended him. They think he will get it. It will be quite a help if he does. @FOOT[Johnson was county extension director and Henderson was the voc ag teacher. Scholarship was received for \$150 for first year at Iowa State College - covered tuition fees of \$126, leaving \$24 for books.]

Wither's and grandpa & grandma were called to Clarinda Sat. to see Loretta and she didn't know them. The Dr tho't she was pretty sick but I guess they haven't heard anymore from them.

We might come up some day but I can't tell you just when. I don't know whether we will know long enough ahead to let you know

or not.

I think you exaggerated your picture I tho't it was pretty good.  
One of them kinda looked like you were holdiing your stomache ha!

You get tired of people talking about you coming down so often.  
If you don't come down they talk just as much about it, everybody  
I saw Sat. night ask about you so you see people just talks.  
@newpage

We are getting too much rain the creek was out all over the  
bottom and across the road but it went down fast. I guest Platte  
was out terrible, a mile and a half wide. We have been trying to  
get the water out of the cave today - had quite a lot in it.  
@FLUSHLEFT {Wednesday morning: --}

Well I don't feel so keen this morning but we are going to wash  
looks like its going to be a nice day and everything is dirty.  
My neck is stiff and hurts pretty bad. I think I'm having sort  
of tonsilitis something like it anyway. I guess if the sun  
shines a while I'll feel better.

Loren didn't take his drivers test they told him to wait until  
after the first of July then he wouldn't have to have it renewed  
we hadn't thought about that. He took the written test, got 98.  
They gave him a permit to drive.

Dad and the boys went to "Arizona" last night. The boys liked it  
they said but Dad didn't care much for it. Lois didn't want to  
go she said she knew she wouldn't like it. She had seen the preview.

Frank was up town yesterday. He and Junella Smith were at  
grandma's for dinner and Dad was there. He came by airplane only  
had three days cost \$169 round trip. He was going to Alaska  
right away and I guess was pretty homesick. Has to be in Omaha  
by six o'clock this evening to take the plane back.

Dad got another sack of flour yesterday so I have a little pan  
for you. Dad and Loren heard some big stories yesterday about  
the high water. I guess it was sure terrible. There was so much  
livestock drowned. They said Doyle Barnett lost 17 head of cattle.

Freeland's are having a sale in the old Post Office building.  
They say they are discontinuing the Lamoni store. I didn't have  
much money to invest but I got me a pair of everyday shoes and a  
curtain for the front bedroom gave .23 for the curtain. I tho't  
it was a bargain. My shoes were \$1.47, brown oxfords.

I tho't Lois' picture was good too. I think Don must of been  
standing a little closer to you and Dad, makes you look larger.  
We'll watch out for that next time.

I noticed the tooth brush, I wrapped it in cellophane so you  
won't need to bring yours when you come. You'll have one here.  
Also noticed your house coat - did think I would mail it to you  
but just didn't get it done.

It's clouded up don't know whether it's going to be a very nice day or not. Mrs. Napier isn't having club until next week and I'm glad for I don't feel like going maybe it will be nicer next week. I talked to O.B. he said the Mrs. was able to be up a little and at a little breakfast. Well this will be all and I guess you are glad its so scribbly.

@APPENDIXSECTION(Letter from ORIN W. ADAIR To His Parents, GLADYS [SPENCER] and FRED ADAIR - 1944)

@UNDENT<NOTE: This is the letter that he told of his experiences on his 30th Bomber Mission over Germany during World War II. He was a grandson of Orin SPENCER. Censorship was very tight the early years of this War but about this time they started to lift close censorship.>

@ADDRESS(England  
October 20, 1944)

All is well that end well and I can now write that I'm back once more safe after a very shaky experience. I have to be cautious as to how much I tell, but @U(roughly) we crashed in eastern France last Saturday and have been since then getting back to England.

I'm sorry you haven't heard from me for so many days, but I hoped you wouldn't be too worried. I sent you my 30th cable so you should know from that that all is well.

On this flight I was tail gunner in the Group lead ship again (4th time) and of course wasn't able to see all that happened up in front. As the captain said, (our pilot) "We just ran out to engines." We lost 3 and were trying to make it back across the lines on one even though we were going down all the way. We probably came down across the lines pretty near where John was. That last engine was giving out just before we hit. We were attempting to make some kind of a fighter strip but they were too far away and we tried to settle for a belly landing in a smooth field and ended up clearing the Argonne Forest and falling about 400 yards short of the freshly planted wheat field we wanted to get into and crash landed in a rough pasture where we gouged off the tops of the rises in the ground as went across the fireld and through a fence shearing off a bunch of small trees that spun us around and stopped us @U(right now) in the freshly planted field of loose dirt we'd headed for. The airplane was a total wreck and it's amazing how we all came out as well as we did because of the seven officers and four enlisted men we carry on a Pathfinder ship. I was the @U(only) one hurt. My left ankle and foot got a pretty good battering from some stuff that came down on it and then it was wrenched too as it started to get dragged under the airplane. It is still swollen after 5 1/2 days and has pain like

the cramps you get in your ankle when you get cold swimming. I was lucky I had on 3 pair of socks, my G.I. shoes and heavy flying boots or it could have been hurt worse and the fact that the dirt was loose and soft at the last and that helped. The bottom of the airplane was swept away by the successive crashes on the rough ground and the thin laminated wood flooring of the radio room into which 9 of us were crowded shattered and disintegrated and we were literally dragging our behinds on the ground. I guess the loose dirt we were plowing up kept us on top of it as it surged in and filled the plane or else we could have been dragged out and under the plane. The radio room space is about 2 feet by 5 1/2 feet in a kind of a "T" shape when all the equipment is in there and none of us can understand how we all 9 got in there. The other two, the pilot and copilot were up on the flight deck of course.

I had X-rays taken of my ankle when we got back and the doctors believe that no bones were broken, but I have been grounded and am to stay off my foot as much as possible.

I have this writing paper propped up against my knee here in bed and am trying to write, so I hope you can read my scribbling.

I expect it will take a week or maybe two to regain any strength and get the swelling down by heat treatments.

I happened to have taken a big K-20 aerial camera along on the trip and had been taking pictures of our airfield before we departed the field at high altitude and also some formation pictures and although I left it in the back by the tail wheel when I crawled forward before the crash it wasn't broken after having sailed clear up against the "mickey" equipment and I used it to take pictures of the plane crash (on the ground, I mean) also I had enough exposures to take pictures of various parts of France that we passed through such as the Reims Cathedral, Nazi prisoners enroute back, 1918 battlegrounds near Verdun, bombed airfields, and many burned out tanks, auto and trucks that littered the roadsides. I took 48 pictures in all and the photo lab. here at the field is going to do them all up for us so they should be fairly good. I just turned it in yesterday so I haven't seen how they are coming out but I should be able to send some in my next letter.

Now along to what happened to us while in France. Many French people crowded around the plane a few minutes after we came to a stop and scrambled out and ran clear in the event it exploded. We were about 1/2 mile from a very small village. A jeep and a half-track came up in about 10 minutes and they threw a guard all around the plane. They were on "Security" patrol rounding up scattered prisoners when they saw us coming down. (They picked up over 30 hiding in a woods that same afternoon.) The jeep took the Captain (Gibson) and I to Hdqtrs post and I had some first aid given my foot. They didn't have a phone or any way of communicating out so we back to the pland after commanding a 2 1/2 ton truck and started dismantling the @U(very) secret equipment from the plane - radios, Bomb Sites, Pathfinder Equip.,

Gee Boxes, etc. We had about 1000# altogether and we'd put a little at a time on a jeep and plow through the foot-deep mud out to the truck on the road and come back for more. We had thrown all the guns overboard we could when coming down to lighten the ship. Also flak suits, clothes, and anything we could loosen, all except ourselves and our chutes.

@CENTER(-----)

Time out for lunch. I had to get up finally or starve. I borrowed a bike and went down to eat peddling kinda one-legged. It was raining cats and dogs and I got really soaked. On the way back I stopped by the Photo Lab. and picked up some prints of some pictures I had turned in before. I am enclosing them. I also got some very disappointing news. That is that all the 44 pictures taken after the crash were no good because the crash jammed some film feeding gears inside the camera and all were taken one right on top of one another. From all outward appearances it was O.K., even to them and they didn't even know there was anything wrong until they opened it up. And two of those first four pictures are so good the censors won't release them so I only end up with 2 pictures out of 48. Also I have to be down to the hospital by 4 o'clock so I shall hurry through this letter and give you briefly what happened the other 4 days before we got back.

We stayed at a Fighter Field, P-47, the first night and it rained and I about froze. I bought 2 bottles of the finest Champagne to bring home to the U.S. The center of the wine country is Reims and we were about 15 miles from there and the next morning went into there and went thru the city and in out to another 9th AF, P-47 fighter strip (field) where I saw 261 wrecked German planes, a result of our bombing. I picked up 3 pieces of German stuff for souvenirs. Some 20 M.M. cannon shells, an ammunition box cover, and a part of a swastika off a FW-190 fighter's tail. We ate a nice lunch there and then changed our stuff into another truck and started for Paris where we were to try to get air transportation back to England. Got in there just about dark after a 120 mile ride in a drenching downpour and were cold and pretty wet. We sent another message to England and found that they had never yet received our first one, so our field here never knew for 2 days what had happened to us and all my clothes, money and stuff had been taken out of my room and stored in the supply room. My clothes were a mess when I got back.

Anyway, In Paris we got a truck to take us into Paris and get us to the Seime Basin Hdqtrs. to get us a bed for the night. We were plenty weary. Got a hotel room by about 10 p.m. and went to bed. The next night we also stayed at the same hotel which has been taken over by the Army as have dozens of others. We couldn't get a plane the first day so we finally found we could get a partial pay and we jumped at the chance since we had not a red cent on us. We each got \$100.00 in francs which is 4967 francs to be exact. Things are so high priced though that it would only buy about \$25.00 worth of mdse. in the U.S. since prices are about 4 to 1. Gee is the soldier in France getting taken!

I bought quite a few souvenirs from Paris. Three handkerchiefs which I am sending, 2 bottles of the finest perfume which will be a Xmas present, a beret for myself (new), some postcards, a pewter souvenir ash tray, and a picture of all of us in our rags. On the 3rd morning in Paris we went out to the field all ready to go, but the weather got so bad we didn't make it and had to come back into Paris and get rooms again from Hdqtrs., at another hotel. We did get out the next morning though (Thurs.) in a C-47 transport with all our secret equipment and were met at an English airfield by a B-17 from our own field and flown on back up here through a driving rain. Gods, the weather is rotten. Has been raining all day today. Just a sea of mud all over France and England.

I have more detailed news of our experiences, but I shall have to go down to the hospital now so I shall try and tell of that later. I'm crazy about Paris. It is simply a @U(gorgeous) city. England is a dump by comparison. You might make a typewritten copy of this and send one each to Gma. Spencer and Gps. Adairs. I shall not have time to write all this again.

@CLOSING(@P{Norrine})

In a later letter Orin wrote that the X-rays showed no bones broken in his ankle but there were torn or sprained ligaments, and they made a boot cast for him to wear and kept him in the Hosp. for a few days rest and he will be grounded 'till his ankle is O.K. again. He is rated a pilot now but there is a surplus of pilots on that field just now, so he flies as co-pilot or tail gunner to get in his missions as fast as possible. We still @U(hope) he may complete 35 missions in time to get home for Xmas.

Orin has rec'd the Air Medal, Distinguished Flying Cross and oak leaf clusters. I can't remember the different ribbons. He has to fly 5 missions as a pilot before he is advanced to 1st Leut. on his particular flying field. He has a radio with ear phones so he will have entertainment while @U(waiting) for the ankle to recover.

I am sorry I didn't get to visit you again before I left but lets hope I can be down thare again in the near future. Thank you for the card and the cheery message it brot sometimes little things do more to make us happy than bigger things.

I wanted to spend a longer time with your Mother thare while, and may have the pleasure of doing so sometime. I am feeling fairly good and feel when spring comes I will be my self again. I am not working and think it is best to take it easy for a while.

I can hardly express my feelings about @P(Ruby). I am anxious to hear particulars in regard to the accident. She had a real nice car and drove it often, most of the time alone.

My heart felt feelings go to @P(Carrol) and children. They were so fond of Grandma, and Carrol and Ruby were togather so much. Carrols husband is in the service. She lives in Coronach, Can, and Ruby lived in Mont, just accross the boundry. Your letter was the first I had heard of the accident. Then Aunt @P(Eva) wrote me too.

I will let you know if I get any news. I rec a letter from up thare and nothing was said about it. It was mailed Dec 14@U(th). Do you know who first got the news down thare? You may have heard by now. We have been snowed in for a while. I sure stay near the house. I havn't done any Xmas shopping and it look like I wasn't going too.

@APPENDIXSECTION(Letter from LOREN ELLIOTT To his Parents, ILAH [SPENCER] & MARK ELLIOTT - 1945)

@CENTER('Extract printed in the MOUNT AYR RECORD NEWS - 1945')

Mr. & Mrs. Mark [Ilah (SPENCER)] ELLIOTT submit the following extract from a letter to them from their son, Loren, who is an aviation technician on a baby flattop somewhere in the South Pacific, dated March 21, 1945.

@I(I now have a little to write you in which you'll be interested, as they lifted censorship quite a lot yesterday, and Admiral Nimitz is allowing us to write about what we were doing a month previous. I should have more I can write in about a couple of weeks.

You already know mostly what we were doing the first two months after I came aboard the "Mighty Mak", so I won't go into that. On Sept. 25, [1944] I saw the States for the last time as we pulled anchor and on the way to Pearl Harbor with a load of new planes. We dropped anchor six days later in Pearl Harbor, about fifty yards from the remains of the old "Arizona". I made one short liberty into Honolulu two days later, and the joint didn't quite meet up to expectations. I will go into that more at a later date. We unloaded our planes and started to load back up with old survey jobs bound back for the States, when our orders were changed and we reloaded with new Hellcats and were soon on our way to Manus in the Admiralty Islands. Crossed the Equator Oct. 14, and arrived in Manus Oct. 16. Went on one beach swimming party while there. We didn't stay long and were back at Pearl Harbor the latter part of October and dropped anchor near the remains of the old "Utah". Pearl Harbor practically became home for the next three months, and were in and out every week training pilots. We ran up our total number of landings on this carrier since commissioned to almost 10,000 and set a CVE record of completing 273 landings and takeoffs in one day. I made several liberties into Honolulu and went to school near there for one week.

On Christmas we were docked in Pearl Harbor, and on New Year's Eve we were training night fighters. I happened to have the duty that night and was standing by on the flight deck in the island. It was a beautiful night, and we had very good luck that night. We were served sandwiches and coffee on the flight deck right after the New Year came in.

I saw Ralph Stevens, as he told you, the latter part of Jan. I thought I was never going to find him, but by coincidence bumped into him downtown in Honolulu. The next day we pulled anchor and were on our way to Entiwetok in the Marshall Islands. Were there a few days and went on the beach swimming one day. There isn't much there - just a lot of small islands, more commonly called atolls. We left there a short time later and participated in the Iwo Jima Campaign. Were around all the time, but the Navy had it relatively soft compared to the Marines.

From there I'll have to leave you.

@FLUSHLEFT(Dear Aunt Ila & All.)

I will try & scribble a note to let you folks know where I am & how much good I'm not doing the war effort.

I have been here two weeks now. Of course, we are taking training, but most of it is the same things I had two years ago in basic training. I guess what is really holding things up is the transportation snarl, caused by the shift from Europe to Asia. We were originally converted from cavalry to Armored Forces for services in Europe, but by the time they had us converted the war was over.

@newpage

The saying is sort of reversed in our case. They have "too many & too late". I think they will have a use for us when they really get started in the Pacific.@FOOT[At this point in time, with the struggles we had in taking Iwo Jima & Okinawa, it appeared it could take a year or more to take the Mainland of Japan. Those in the Pacific were looking forward for your help, Joe!] They are getting to where they can start using a lot of armor over there now. I am certainly not anxious to go overseas,

but if I didn't I would always feel that all this time I have put in would be a total waste. I will say I have I have been very fortunate so far, I have really had an easy life in the Army, as compared to some.

Mom said you were up to see her & told me of the good help you gave them. She said you was quite concerned about Loren, as you have good reason to be. One thing sure though, there is no unit in the Navy that get better protection than their aircraft carriers.

It is only 18 miles from here to Baltimore & 30 to Washington. I have visited both, not much for me in Baltimore just another city. I seen quite a few interesting things in Washington such as The Capital, Washington, Lincoln, and Jefferson Memorials. I rode the elevator to the top of Washington Monument something like 440 ft. up. You can see the whole city from there. I also went up to the Arlington Cemetery, seen the tomb of the unknown soldier and went through the house of Robert E. Lee. They have it all just as it was when the Lee's lived there with the old furniture, silver, dishes and crystal chandeliers. They also have the slave quarters with the old home made furniture & spinning wheels even old dried up hams & bacon hanging in the smokehouse. A person really needs a car to see everything. Things are scattered over so much territory & trolleys don't run where you want to go & taxis are expensive even on their tours. If it quits raining I think I will go back tomorrow & go to the Smithsonian Institute & the Congressal Library.

The farming is very different out here than it is back there. I have only seen one field of corn around here & it was probably sweetcorn. They grow mostly truck, here such as cabbage, beans & sweet potatoes. That is about all I've seen up so far. There is quite a few peach & apple orchards. The soil don't look like it is worth more than \$10 an acre mostly sand. I know it wouldn't be worth that out there.

Well I run down for now so will sign off.

@FLUSHLEFT(Dear Aunt Lola & All,)

This won't be a very long letter as we've just come back from Russell's @FOOT[Russell Spencer was the son of Clarence.] funeral - he has been working up in Yellowknife since he was married 6 Mar '47. He was shaft boss in Negus Mine.

Apparently they laid two charges of dynamite in the shaft and one went off. Bud (Russell) & another fellow waited 20 mins. and went down to investigate thinking the fuse or the stick was a dud. When Bud was within 2 ft of the charge it went off. The lad following behind him is crippled - blinded for life and his body is full of rock so you can imagine with what force it hit Bud. He was killed instantly and we are thankful he didn't suffer and he never knew what hit him. He was killed on their third wedding anniversary 6 Mar '50. Their little girl @P[Diana] will be two in Apr and @P[Dot] expects another in July. Mama hopes it is a boy, and if it is, he will be named Russell Lloyd.

Mama, of course, is quite broken up - now both men of the family are gone. Its just lately we had grown accustomed of Daddy being away and now lose Bud.

The funeral was just a family affair, but lots of lovely flowers. He was buried at Mildred, Sask, at his wife's home town, in the family plot. Everything was so sudden we didn't have time to let anyone know. Will you let the rest of the family down there know.

Well my dear I must close, our best to all.

Dark comes so early, but he got his Drivers license with no restrictions. Better than he expected. I took the apron to Avis and then drove by the little old house. Looked so bare around there. Painted up better but don't look near as homey and the two kitchen windows looked just piled full of something.

Nice snow wasn't it? So still and white outside tonight and getting a lot colder I believe.

Are you having a Xmas dinner this year. Ours will be on Sunday following Xmas day. I guess as some of the children go to their in laws this yr. I stopped at @P[Uncle Alpha's] a few minutes. They seem pretty comfortable but the TV wasn't on. Don't believe he likes it much.

Well I'll enclose this with a card. Don't believe there is much chance of a surprise on you this year, unless you come up here that day and surprise me! Guess that's the way to do it anyway. So some one else could get the dinner.

Oh I just thought why I've felt so lonely today. 3 yrs ago wasn't it when Mama left us. Time rolls on. I have had Xmas card from little @P[Avis] and letter from sister @P[Avis]. She had had company but @P[Bill] stayed home & helped her as if she maybe don't feel too good.

@ADDRESS[AVIS COWAN

@FLUSHLEFT[Dear Loren,]

First I want to thank you for the pictures, and the copies of the family History. I didn't get this letter off as soon as I intended. I don't know exactly where the time goes. This morning I walked up to the Hillside to get my hair fixed - came home and ate a bite of lunch and then walked over to the convalesarium to see a couple of old friends. It isn't the most pleasant place to go so I have a tendency to put it off until I get ashamed of myself. One of them never remembers me so I don't know how much good it does her.

It is a beautiful day. The first nice spring day that we have seen - Supposed to get in the eighties - then rain again by the weekend. Seems like it always rains when the golfers want to get out over the week ends. I spent Easter Sunday dinner at Stauffers Hotel in Dublin with friends - 10 of us. Had intended to walk up to Chapel at Hillside but we had such a downpour that I gave that up. We got together at one of their homes about 11:30 and went for brunch at 1:30 - Good food but a person usually over eats. I was interested in hearing about your trip to Pasadena. @B[Sayde] talked about moving into a retirement home but she evidently didn't move. It is always a problem to make a move - but I think she is wise to stay in Pasadena. (Suburb of Houston) I think she considered moving back to Dallas. I haven't heard from her for quite a long time. I guess we all get to be "poor letter writers" as we get older. Bill has some nieces in Des Moines and one sister that recently moved into a health Center so I try to keep in touch with them. They, the village, put some shrubbery in front of my room and I hope I don't get into much gardening this year. It has to be watered quite a bit so I will have to help with that. The lady next door is much younger than I so she usually does most of the work. I don't think roses that are in that bed off the patio made it through the winter. They were pretty amongst the flowers but required quite a bit of work and I am not for climbing up any banks - Too many people around here get falls.

I played progressive bridge last night - came in second. Some good players go down and a lot of poor ones - I don't know why they don't get a book and read the basics at least.

I will write a few statistics about my family on another page. Maybe it will fill in a few blank spaces. Thanks again and I send My love to you and Alma --

@FLUSHLEFT[

I expect to go down to @B{Jerry's} for a week around the 10th of May.]

@ADDRESS[April 26, 1984]

The data about the @B[Cowan] family is correct. Some of the information about the Minister is probably in my safe deposit box as I can't seem to find it around here. @B[Bill's] parents were Robert Cowan b 10-7-47, Airdrie, Scotland (d in Des Moines 10-1-26), married to Jane Clarkson b 9-5-52 in Newarthill, Scotland, and d 12-15-24. Married 10-10-1873 in Lanaskshire, Scotland. He has nine sisters - 7 born in this country. I never knew Bills Mother but did meet his Dad. (Some of this is just for @U[you] information.) None of his sisters are living except Jeanette Sellers and she did live with a niece at 2744 Patterson Rd in Des Moines but is now in a health center. Bill was the youngest B 8-25-95 at Angus, Iowa, D 11-23-1974 in Columbus, Ohio. Married Avis Spencer 4-22-1925. Bill is interred in Union Cemetery in Columbus, Ohio.

Bill worked for the Harford Insurance Co. (parent Co. of the New York Underwriters) for 36 years. He retired in 1960, was a veteran of World War I and a 50 yr member of Home Lodge No 370 F and ASN - Des Moines, IA. Avis and Bill have one son, Jerry Louis Cowan born May 18, '27, in Des Moines. We moved to Columbus, Ohio, in 1929. Jerry graduated from Grandview High School, Denison University at Granville, Ohio, and Law school at Univ. of Virginia, Charlottesville, VA. Went to work for Frost and Jacobs Law firm in Cincinnati after graduation and was made a member of the firm in 1963. Jerry served in Air Force in 1945. Married Lee Steel 6-15-55 in Washington, D.C. Lee was an airline hostess working out of Washington, D.C. She was born in Weirton, West Va., 12-9-27. They have two sons - Grant Spencer Cowan b. 7-22-59 and Breck Marshall Cowan b. 5-28-62. Grant graduated from Univ of Va and will graduate from Cincinnati Law School in June 1984 and will work for his Dad's law firm this summer. Breck has one more year in college.

Jerry lives at 11 Hill and Hollow Lane, Cincinnati, Ohio 45208. I know you won't want to put all this in your draft but thought you might like to know something about your relatives.

There are always a few funny things that you remember about the by gone years. You know when I was in High School I stayed with Grandma Spencer. The folks were still living on the farm. Some way or other Dad always got me up there on Sunday - probably by horse and buggy and you know that was a long ride (Yes, 7 or 8 miles). Grandma Spencer's house had 2 front doors - one that let into the living room and the other led up the stairway to my bedroom. She slept downstairs. I don't think I had a date all the time I was in High School but occasionally I would go down to Blanch @B[Long] Swain's home and I would try to get up stairway without Grandma hearing me. The stairway was squeaky and I would try my best to avoid the squeaky steps but before I would get up stairs she would always holler out, "I hear you". I think the folks took her eggs and etc and I tried to help her some. She was practically blind. About the only thing I remember about @B{teaching in a country school} was my noon lunch. I stayed

with some people by the name of Lucas. They always had biscuits and sausage for breakfast. When I opened my lunch box I always had the left over cold biscuits and sausage for lunch. That must of been one of the reasons I decided there was no future in that.

I knew Marie Moore (her family lived near Mt. Ayr) and she was working in D.M. and always talked to me about going up there and getting a job. I can't remember that Dad tried to discourage me when I told him I was going to the big city. When I came home I had to take a train to Benton and he would meet me there. He had bought a @B[Model T Ford]. One time he wasn't there to meet me and some driver told me that he was to take me home. On our way to Mt. Ayr we met this car and I said, "That was my Dad." Dad must have recognized me and @B[lost control of his car and turned upside down in a ditch.] We turned around and when we got back there Dad was crawling out of the car in a big fur coat which he always wore. The two turned the car right side up. I crawled in with Dad and we sailed away. He wasn't hurt and neither was the car damaged. That shows how the cars were made back in those days.

Anyway I did get a job in the bookkeeping dept. for the National always said he fell in love with my sailor hat - but kidded me about quitting my job when we got married and never working again. Bill traveled and at that time there wasn't too many paved roads. He always talked about Iowa's clay roads and sometimes he would have to hole up in a hotel for several days. I wish he were alive today to tell you of some of his experiences. He worked when he was in grade school and high school to earn his own spending money. He told about working in the summer carrying water to a bricklayer - 8 hours a day for 75 cents an hour. What an era!! (Suspect she meant 75 cents per day).

Just to admit that I am not trying to say we were always little angels. You know prohibition was in force from 1920 to 1933. There were night clubs where you could buy setups but you had to sneak the liquor in. So sometimes on a date we would go out to these places to dance and the boy friends always had a way to get around the law.

After reading some of this over I think I should give it the `pitch' - but I will send it along. I know I would never get another one written. Excuse the "scratchout's" and etc. The results of your toy look great to me.

P.S. I get letters from Madge Spencer Hazen, Humeston, Iowa, Box 232, 50123, and Blanch Long Swain, 2657 E. 35th, Tulsa, Okla 74105, at Christmas.

I read some place that a name can be quite revealing. The names used came from major sources - occupations, location or an unusual occupation, because every name in a village was usually John, William, or Richard - in other words John the village blacksmith became John Black or John Smith and John the village suit maker became John Taylor, or if they both lived on a hill he would become John Hill or if near a stream he would be John Brook. I am running out of steam.

NOTE: Aunt Avis died 26 May 1985 of injuries suffered in an auto accident that occurred 22 Apr 1985, a year after writing this letter. She would have been 87 on 5 Aug 1985 and was still reaping much out of life. She was a passenger in an auto driven by a lady friend near her age. ***Thank you Aunt Avis for taking the time to write and sharing. We much enjoyed the privilege of being able to pass your way!*** [Original letter forwarded to her son, Jerry. lse.]
